AUSTRALIAN MADE AUSTRALIAN OWNED

NOTHING RIDES LIKE A SIGNATURE

* Available in Side Console (SC) or Centre Console (CC) configurations.

Tailor made for the true sports fisherman.

The 543SF is one of our most popular models and for good reason. The 543SF is purpose built for sports and tournament fishing and is as comfortable offshore as it is in freshwater.

The 543SF epitomises sports fishing at its best. It features a fully-moulded non-slip deck, complimented up front with an expansive casting deck and walk around cockpit area so you have the working room to fight those game fish. It also has plenty of storage below with kill tanks and live bait wells, rod holders and a huge 180L fuel tank (side console).

Customise the layout to suit your style and needs with both side and centre console configurations available, as well as numerous seating, deck and stowage options. You can also choose from a number of different hull and interior colour combinations.

This model is available in a side (SC) or centre console (CC) configuration.

Standard Features

Electrics:

- Auto bilge pump - 1250GPH
